From transforming lives to harnessing water and electric power, Ahmed Ramadhan Juma Holding has been a name to reckon with since 1964. Reflecting the values of the Group's founder, ARJ Holding believes quality, social responsibility and transparency are the guiding principles for seeking new opportunities, conducting fair business and succeeding together. Coming a long way since its inception, the Group has successfully scaled up its operations and scope in the last 50 years to diversify and expand beyond the region, bringing ARJ to the forefront of global technologies and services.

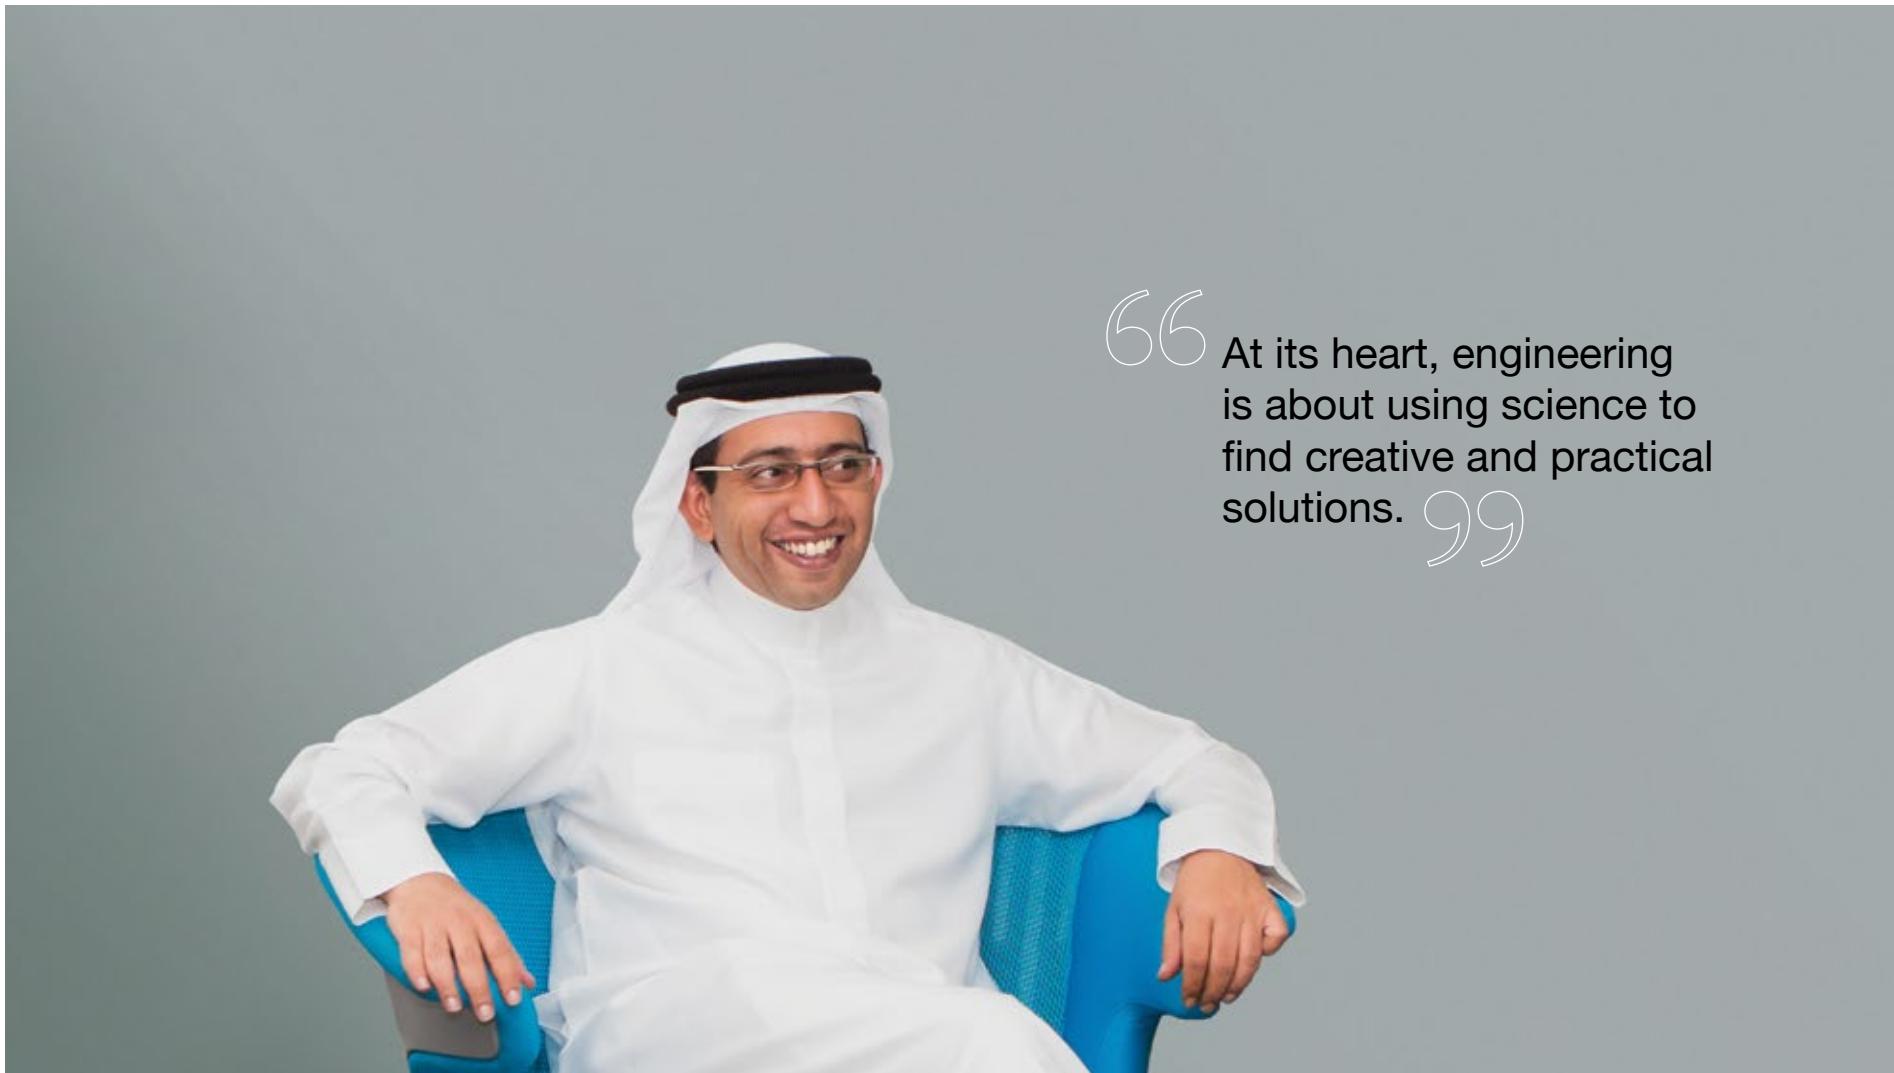

“ The aim of all education is the development of character. ”

Ahmed Ramadhan Juma
Founder - ARJ Holding

ARJ Holding, the business empire it is today, started as one man's vision to transform lives. The Group's founder, Mr. Ahmed Ramadhan Juma, envisioned a progressive society built on the rock solid foundations of modern engineering and took the first steps by setting up a water pump business, way back in 1964. The escalated growth and rapid diversification in the years to follow is a testimony to his keen foresight and business acumen.

With the company's foray into the building and construction sector, he earned considerable support and admiration for being an active contributor towards the country's growth and for channeling business with prudence.

Fondly remembered for his humility, high moral values and sense of social responsibility, Mr. Juma's principles and business ethics are put into practice till date and are at the very core of ARJ Holding's operations.

“ At its heart, engineering is about using science to find creative and practical solutions. ”

Shahab A.R. Juma
Chairman - ARJ Holding

I am delighted to introduce the ARJ Engineering, part of ARJ holdings profile. Our Group, with a presence of over four decades in the region, was actively involved in meeting the rising demand for water (pumps and its distribution). Over the last decade we have expanded our business rapidly in areas that are vital for life – air, water and life safety. We are now an integrated engineering solutions provider offering comprehensive products and services in the building construction sector, enabling our clients to experience and enjoy our “Delivering Excellence” motto in their journey of life.

Our success has been in building relationships with all our clients and associates and working for mutual benefit in the most ethical and transparent manner. We are now a dominant player across GCC and aspire to explore new horizons in the coming years. Our pride and strength are our employees. Though from different origins and dialects, they are focused and oriented to serve the customer with the best - first time and every time.

I thank all our patrons and business associates who have been a part of our growth and accomplishment. I welcome you to read this profile to know our business segments and areas of expertise and our recent achievements.

Thank you

ARJ HOLDING

A multinational powerhouse of over 2,500 employees, ARJ Holding today is one of the prominent business houses in United Arab Emirates, representing leading brands, serving government entities and large corporates. The Group aims to be the leader in GCC and beyond with four major focus areas — Trade, Power, Life & Green. Encompassing a varied portfolio that includes Building and Engineering Services, Manufacturing, Water Management Technologies, Property Development, Renewable Energy Systems, Hospitality, F&B, Health & Wellness, Marketing Communications, Education, Fashion & Retail.

Headquartered in Dubai - UAE and covering the entire middle east and gulf regions, as well as strategic offices in India, USA, Uzbekistan, Georgia, South Korea, Russia, Switzerland and Singapore. ARJ is growing from strength to strength, delivering consistent quality and setting new standards in excellence.

INDUSTRIES

ARJ cemented its footprint into the industrial market by introducing and manufacturing cutting edge civilian and military grade vehicles, focused not only on comfort and luxury, but speed and tactical precision.

Luxury Jet

With more than 70 years of aviation industry experience, JSC "TAM" - Tbilisi Aircraft Manufacturing (TAM), in partnership with ARJ Holding manufactures The TAM Jet, a state of the art luxury jet that includes a glass cockpit, de-icing, and autopilot, and materials certified in design and quality. Tam Jets advanced space-age composite materials include carbon-fiber, fibreglass and Nomex, giving the jet a lead in safety over aluminium planes.

Helicopter

The 2 seater SKY-ION 2 is presented in both, manned and unmanned (drone) versions. The drone version is multifunctional, with mission profiles including border control with infrared and infragreen cameras, early warning, freight deliveries, police surveillance, military & civil missions and retrieval operations. The manned version is used for powerline inspection, search & rescue, civil transport, agriculture, fishing fleets and law enforcement.

Motorcycle

Made from the highest quality materials with parts manufactured by world renowned experts, the FELINE is a high-tech deluxe motorcycle, whose accented and unique panther style creates a lasting impression. As the FELINE is electric, it produces zero emissions. This motorcycle is also extremely easy and efficient to ride.

Multi-Functional Aircraft

As a multipurpose amphibious aircraft of a normal category with a hovercraft chassis, the Albatross is intended for regular passenger-and-freight operations in the absence of a developed airfield infrastructure, with minimal dependence on weather conditions and the airfield state. It is capable of taking off and landing on any type of surface, including sand, turf, snow, ice, or marsh water. It is able to cross the shallows, ditches, cliffs and other irregularities from a height of 0.35 to 0.5 meters.

Advanced All-Terrain Amphibious Vehicles (AATV)

Aton Impulse was established in 2001 with the purpose to launch series of assembled AATV's. The vehicles low pressure tyres are an important feature in operating through extreme weather and climate. The build is to ensure that these vehicles are capable of intermediate on and off-road tracking, fully amphibious. The AATV is environmentally friendly. The crew and cargo are positioned to ensure maximum safety while bracing the elements.

Stallion Lubricants FZC

Located in Ras Al Khaimah, UAE, Stallion Lubricants Refinery Company (SLRC) is a certified, state of the art refinery, specializing in lubricant waste treatment with a capacity to process 116,400 BPSD of mixed base oil after start-up, or 2000 MTons daily. The refinery is designed to process a mixed feedstock of 65% consumed oil (76,400 BPSD) and 35% (40,000 BPSD) from extract oil.

ARJ Aviation

ARJ Aviation is a newly diversified global division offering airline services that include travel & tourism, and personal aviation, and management of borders, airports, airlines and telecommunications. Partnering with a prominent industry conglomerate has created expertise and financing opportunities within the industry infrastructure and service. Some of their mutual partners include SITA, Technoking, and Dnata, to name a few.

WELLNESS AND HOSPITALITY

ARJ Holding built its Wellness and Hospitality sector, with La Verda Suites & Villas, Dubai Marina at its helm. In its path followed a range of restaurants with cuisines catered to each palate. La Verda prides itself on its vision “Be Home”, where each of our guests experience the same warmth & comfort that they would feel at their home, with a touch of luxury. Within a year, La Verda proved its potential driven solely by this vision.

La Verda Global

With the vision of ‘Be Home’ in mind, La Verda plans to bring the same level of hospitality and comfort to other parts of the globe, namely, Qatar, Georgia, London and Russia, all in the next few years. La Verda Global aims to expand its offerings to guests ranging in tastes and budget. The current line-up of La Verda Global’s options include:

La Verda Palace: An uber luxury hotel with a lifestyle to achieve and for others to aspire. It offers an unparalleled selection of villas with outstanding service and bespoke wellness offerings.

Caramelo: Uniquely positioned for business traveler & short stays, Caramelo is an integrated community living in a multiuser development, where work and living converge.

Vivir: This category offers a fully fitted apartment, with rooms that are fitted with things that an average home would require. Vivir’s design centers around simplicity and style, which parallels to the brand offerings of quality apartment living and provision of daily amenities.

LV Connect: A tech savvy environment to match today’s young connected business traveller. The 3-4 Star property space is located in Business or Financial Hub with exhibition centers. It boasts integrated technological services and energy efficient systems (SMART Rooms).

Q Hotels and Resorts: This uber luxury 7 star and 5 star plus properties is known for its unexpected pampering and ultimate comfort and extravagance. It is furnished with bespoke designs and a rich selection of facilities and amenities.

ARJ Food & Beverages

Located within the premises of La Verda, our cuisines, made with love and full of flavour, are catered by a wide range of restaurants that share a spectacular view of Dubai Marina’s promenade. Our current offerings include:

Bahar: Jitaku: Serving a selection of authentic and modern Japanese Cuisine that our team of talented chefs have spent creating and refining.

Uzbekistan Corner: Bringing the experience of Uzbek culture to your plates is an authentic experience freshly made by our talented Uzbek chefs. If you want authentic and delicious local Uzbek cuisine you won’t find a more welcoming place.

Promenade: An all-day dining and 24 hour room service restaurant offering a variety of meals that include breakfast buffet, kids menu, snacks, and an international à la carte menu.

Hoyamal: A heritage styled outdoor café offering refreshing aromatic beverages and mouth-watering snacks such as crepes, juices, coffee, tea and pastries.

ARJ Wellness

Located within the premises of La Verda, our wellness offerings are extended to our esteemed hotel guests, to aid them in relaxation, comfort, and provide sound improvement in body and mind.

Candles and Pebbles: Multi-treatment spa that includes traditional, anti-cellulite, lymphatic drainage, heavy legs massage, post-surgery and deep tissue treatment. The spa offers a holistic approach of wellness for guests to reach the desired level of balance, health and beauty. Specialties include traditional Balinese and Thai treatments.

Fit 23: Focuses on client’s fitness and health, and educating them in order to reach their goals. Sessions include functional training, strength and conditioning, physiotherapy and rehabilitation. It offers the best trainers, classes, and definitely the best gym view.

PROPERTIES

In a thriving and vibrant world of real estate and living spaces, ARJ Properties has taken lifestyle to new heights, by developing residential, retail and commercial projects that exude total commitment to excellence in design and workmanship, and meeting its corporate obligation towards protecting the environment and financially progressive locations for individual buyers, corporations and investors.

The success of ARJ Properties can only be defined through their services which they provide to their tenant and staff. With relationships spanning more than 10 years. The team of ARJ Properties have been flexible and have stood with their tenants in their good and bad times, resulting in a stable occupancy rate. Passionate and dedicated, the team extend themselves to the maximum and keep their tenants happy and comfortable.

Residential Leasing

With a primary objective of keeping tenants satisfied, residential abodes, ranging from simple staff accommodations to luxury villas and penthouses, offer nothing short of comfort. With close to 300 residential units around prime locations in Dubai, ARJ Properties has been the developer of buildings that include the Centro Building, Al Muraqqabat Building, Ayal Nasir Building, and the 28 Studio Building, among others.

Commercial Leasing

Providing luxury in the arms of comfort, our commercial properties aim to define style with contentment. From our most recent and prestigious projects such as La Verda Suites and Villas, Dubai Marina to Sapphire, Dubai Silicon Oasis and Le Chateau Blanc in Zaarour Hills, Lebanon, our patrons are treated to opulence they deserve. Our range of commercial properties also extend to the iconic Dubai Cinema Building, and our own headquarters, ARJ Holding.

Mall Management

Located on the esteemed Jumeriah Beach Road, within minutes of the city's most glamorous hotels and restaurants, Agora Mall will set new standards in retail sophistication. With its pleasant atmosphere and stylised architecture, Agora aims to beautifully merge people and their shopping dreams. As one of ARJ Properties biggest offering yet, it relishes a privileged seascape over the majestic Arabian Gulf. Agora Mall is under development phase right now and should be ready for its grand launch by September 2018.

Land Development

Located in the breathtaking pristine northern Metn Caza in Zaarour Hills, Le Chateau Blanc resort overlooks a vast virgin Mediterranean land. Over 1550 meters above sea level, the resort is surrounded by fresh air and a view of the majestic mountain tops of Sannine, one of Lebanon's most astonishing destinations. It features different modes of luxurious villa and town houses, designed to accommodate your every lifestyle need. Boasting cutting edge technology in their conveniences and appliances, these villas are an ideal place to spend every season in style and comfort.

Hospitality

Selectively located in the Dubai Marina, one of the world's largest and most meticulously planned waterfront developments, La Verda offers a whole new level of grandeur, while enjoying the longest stretch on the promenade with its villas, tower and food & beverage outlets. The 151 individually designed living spaces here, range from an intimate one-bedroom apartment to a spacious 4-bedroom villa, with ultra-modern furnishings, deluxe bathrooms and fully equipped kitchens. La Verda offers the ultimate luxury of a deluxe hotel paired with the comforts of home living.
